

# Florida East Coast Railway Society 2017 Convention

Miami, Sept. 21 - 23

# Miami

## Port of Miami

Hurricane Irma put water here almost as high as the fence.

## fecNtrak Port of Miami module

Crane from <http://www.milwaukee-road-train-shop.com/>

## FEC LNG tender at Hialeah Yard

FEC let us into the locomotive cab and to walk on the sill.

# HO LNG tender model

## LNG tender model on new home layout

Now running in Jacksonville

## **WPB train station model on fecNtrak layout**

Station was scratch built with help from brightline management.

# WPB brightline station

## **FEC Santa train 2015 over St. Lucie River**

I was on the platform, Thomas inside the St. Augustine (Rail Force 1). The HEP generator has been replaced with a Taylor unit.

# New HEP generator car

**WPB station model with FEC OCS and new HEP car**

# Brightline workshop at WPB

# Files for UV printing

# UV printed car in bright blue

## **FEC caboose shown for Bring & Brag day**

FEC was the first railroad to use FREDs in place of cabooses when their railroad workers went on strike during the 60's.

## The end

LNG piping is complex. The piping on the model came with the 3D printed tank from shapeways.com
